LinkedIn: <https://www.linkedin.com/in/rinoldsimon> | Portfolio: <https://about.me/rinoldsimon>

PROFESSIONAL SUMMARY

Senior Full-Stack Engineer with **10 years** of experience building reliable web applications. Strong background in **Ruby on Rails** and **React** ecosystems. Highly experienced in working with remote international teams, managing the full software lifecycle from database design to frontend deployment. Focused on writing clean code, improving application performance, and delivering features that meet business goals on time. Actively leveraging modern AI coding environment and LLMs (Cursor, Claude, ChatGPT, Gemini) to write cleaner code, troubleshoot complex bugs and optimize application performance.

CAREER PORTFOLIO & CONTRIBUTIONS

- **StackOverflow** (stackoverflow.com/users/2480797/rinold-simon): Recognized contributor with **3,000+** reputation points; actively provided solutions for Ruby on Rails and Ember.js community issues.
- **GitHub** (github.com/rinoldsimon): Repository for technical projects and code samples.
- **Open Source**: Built and deployed a functional social media web application utilizing Ruby on Rails.
- **Tech Blog** (learnrubyblog.wordpress.com): Authored and maintained a technical blog focused on Ruby on Rails development.

TECHNICAL SKILLS

- **Frontend**: React, JavaScript, TypeScript, Tailwind CSS, HTML/CSS
- **Backend**: Ruby on Rails, Node.js
- **Databases**: PostgreSQL, MySQL, Redis
- **Tools & Infrastructure**: Git, Docker, Sidekiq, REST API Development
- **Testing**: RSpec, automated testing practices
- **AI Development Tools**: Cursor, Claude, ChatGPT, Gemini, AI-Assisted Workflows

PROFESSIONAL EXPERIENCE

EliteCoders | Remote

Senior Software Engineer (Consultant for GUILDHOUSE Group)

Dec 2022 – Present

- Build and maintain core features for Student Information Systems (SIS), ensuring smooth data flow and user experience.
- Develop responsive user interfaces using React and connect them securely to Ruby on Rails backend APIs.
- Improve database query performance in PostgreSQL and handle heavy background tasks using Sidekiq and Redis.
- Work closely with US-based clients, providing daily updates and participating in code reviews to ensure high code quality.

Senior Software Engineer (Core Platform)

Apr 2022 – Nov 2022

- Helped build a remote hiring platform connecting companies with developers.
- Improved frontend loading speeds by rewriting inefficient API calls and cleaning up legacy code.

Maxiom Technology | Remote

- Senior Full Stack Developer (Consultant for FiscalNote)**
- Jun 2021 – Mar 2022
- Played a key role in migrating the FiscalNote platform from a complex microservices setup into a single, unified Ruby on Rails application.
 - Optimized database structures to ensure the new application ran faster and more reliably than the old system.

- Full Stack Developer (Internal: hyperlogs)**
- Jan 2021 – May 2021
- Fixed bugs and built new core features for the hyperlogs web application.
 - Contributed to building a mobile version of the application using Flutter for cross-platform support.

- Full Stack Developer**
- Jun 2019 – Dec 2020
- Built an automated Node.js tool to manage Amazon seller accounts, processing orders and handling shipping logistics without human intervention.

DigirYTE Ltd | Chennai, India

- Lead Frontend Developer**
- Jun 2016 – May 2019
- Led the frontend development of a healthcare application, ensuring patient data was handled securely according to industry standards.
 - Managed a team of 6 developers as Tech Lead, running daily Scrum meetings and mentoring junior team members.

EDUCATION

- Master of Science (M.Sc) in Information Technology**
- Graduated 2016
- College Of Engineering Guindy | Chennai, India
